

# About the Hispanic Wealth Project™

## What is HWP?

The Hispanic Wealth Project™ (HWP) is a non-profit organization whose mission is to financially and educationally empower the Hispanic community in America. HWP fosters a national dialogue around issues affecting the creation and retention of wealth for Hispanic households. To drive this initiative, HWP has identified four strategic pillars that aim to reduce the proportional wealth gap between Hispanic and non-Hispanic White households by 50% by 2034; these pillars are: Real Estate, Business Ownership, Financial Diversification & Asset Protection.

## Join the Movement!

HWP programs foster the concept of collaboration and provide exclusive opportunities to interface with high-caliber professionals. Collectively, the programs enhance HWP's initiatives to increase Hispanic household wealth, which expands accessibility to likeminded individuals via networking opportunities.

# Become an influential leader—fuel financial knowledge and unleash wealth-building potential!

Join a powerful network of leaders dedicated to improving financial literacy and building generational wealth. As a Certified Trainer, you'll inspire your community while gaining the tools, mentorship, and resources to elevate your own financial future.

**Ready to lead? Apply today:**
