

What documents do I need for the

Top 250 Latino Mortgage Originators Award?

You need to provide the mortgage volume and number of closed residential loans during the 2023 calendar year.

You also need a production report from your company for the 2023 calendar year for verification purposes. A production report is an itemized list of loans closed that includes the following:

Keep in mind:

- A summary of your production or image of your production does not suffice. Images or screenshots will not be accepted as verification.
- Second liens or HELOCs are excluded from the final loan count. Second liens are counted towards total mortgage volume.
- Your name must be attached to the "Uniform Residential Loan Application" (1003)
 as the originator on record for each loan to qualify towards the total number of
 closed mortgages.
